Re: Case # 21-0048
Lincoln Str Plat

Before further congestion & development takes place on Lincoln Street, consideration should be given to eliminating the extremely blind hazardous corner of Lincoln & 55th Ave.

One suggestion is to close off Lincoln to a dead end street, the other to a Cul-de-Sac. That particular blind corner is also subject to extreme flooding during periods of heavy precipitation from rain & snow melt - thereby causing more pollution into Laddie Lake.

Give this some serious thought & consideration.
