PrimeTime® playground systems are a great solution for customers on a budget. The 3.5" uprights and smaller deck size options mean a lower price, but PrimeTime® still features the same high standard of quality we build into all of our products. With a full range of climbers, slides, ladders and play activities, PrimeTime® systems can be configured for any space and any budget, without compromising play or play value.

Features and Benefits

- Fun climbing events and slides keep kids moving throughout the play system
- Interactive panels, gizmos and musical activities for creative and imaginative play
- Affordable, compact design that is ideal for limited space
- Durable and recyclable steel and plastic components backed by the industry's leading warranty
