Dear Mr. Krieger,

I have prepared the following proposal to install outdoor lighting at the Lexington Athletic Complex as show on the attached sketch. Connexus Energy will install, retain ownership, and will provide ongoing maintenance of the lights under our monthly energy and maintenance rate. The installation cost shown below is a preliminary estimate prior to the final design by Connexus Energy's engineering department.

**Light Fixtures**

9 – Single 135 Watt LED Commercial area lights

9 – Double 135 Watt LED Commercial area lights

The light fixtures listed above will be mounted on 30' fiberglass poles. Four poles located adjacent to parking spaces will be mounted on 30" raised concrete bases.

8 – Decorative Cyclone Domia 60 W LED fixtures on 14' poles. The poles and fixtures are a textured dark green finish.

Total material, labor, electrical feed, and control cabinet. \$111,996.00

The monthly energy and maintenance rate for the 135 Watt lights will be \$9.46 per light per month, and \$7.96 per light, per month, for the 60 Watt lights, based on dusk to dawn operation. If time clock operation is preferred, the lights will be metered and a monthly maintenance only rate of \$2.25 per luminaire per month will apply to the LED lights.

The lights will be installed to utility specifications, and will be maintained by Connexus Energy. The above installation costs are based upon our best practices. If job site conditions beyond our control prevent normal installation procedures or if winter construction is required, additional charges may be applied. Although care will be taken to allow for minimal restoration, Connexus Energy will not be responsible for final restoration of groomed turf.
