- 1.2. **Expiration date.** This Agreement will expire when all obligations have been satisfactorily fulfilled.
- 1.3. **Survival of terms.** All clauses which impose obligations continuing in their nature and which must survive in order to give effect to their meaning will survive the expiration or termination of this Agreement, including, without limitation, the following clauses: 2.4. State Ownership of Improvements; 5. Maintenance by the City; 8. Liability; Worker Compensation Claims; Insurance; 10. State Audits; 11. Government Data Practices; 12. Governing Law; Jurisdiction; Venue; and 14. Force Majeure.

("Project Plans").

2. Right-of-Way Use

- 2.1. **Limited Right to Occupy.** The State grants to the City (and its contractors and consultants) the right to occupy trunk highway right-of-way as necessary to perform the work described in the Project Plans. This right is limited to the purpose of constructing the project, and administering such construction, and may be

revoked by the State at any time, with or without cause. Cause for revoking this right of occupancy includes, but is not limited to, breaching the terms of this or any other agreement (relevant to this project) with the State, failing to provide adequate traffic control or other safety measures, failing to perform the construction properly and in a timely manner, and failing to observe applicable environmental laws or terms of applicable permits. The State will have no liability to the City (or its contractors or consultants) for revoking this right of occupancy.

- 2.2. *State Access; Suspension of Work; Remedial Measures.*** The State's District Engineer or assigned representative retains the right to enter and inspect the trunk highway right-of-way (including the construction being performed on such right-of-way) at any time and without notice to the City or its contractor. If the State determines (in its sole discretion) that the construction is not being performed in a proper or timely manner, or that environmental laws (or the terms of permits) are not being complied with, or that traffic control or other necessary safety measures are not being properly implemented, then the State may direct the City (and its contractor) to take such remedial measures as the State deems necessary. The State may require the City (and its contractors and consultants) to suspend their operations until suitable remedial action plans are approved and implemented. The State will have no liability to the City (or its contractors or consultants) for exercising its rights under this provision.
- 2.3. *Traffic Control; Worker Safety.*** While the City (and its contractors and consultants) are occupying the State right-of-way, they must comply with the approved traffic control plan, and with applicable provisions of the Work Zone Field Handbook (<http://www.dot.state.mn.us/trafficeng/workzone/index.html>). All City, contractor, and consultant personnel occupying the State's right-of-way must be provided with required reflective clothing and hats.
- 2.4. *State Ownership of Improvements.*** The State will retain ownership of its trunk highway right-of-way, including any improvements made to such right-of-way under this Agreement, unless otherwise noted. The warranties and guarantees made by the City's contractor with respect to such improvements (if any) will flow to the State. The City will assist the State, as necessary, to enforce such warranties and guarantees, and to obtain recovery from the City's consultants, and contractor (including its sureties) for non-performance of contract work, for design errors and omissions, and for defects in materials and workmanship. Upon request of the State, the City will undertake such actions as are reasonably necessary to transfer or assign contract rights to the State and to permit subrogation by the State with respect to claims against the City's consultants and contractors.

3. Contract Award and Construction

3.1. *Contract Terms.* The City's contract with its construction contractor(s) must include the following terms:

- A. A clause making the State of Minnesota, acting through its Commissioner of Transportation, an intended third-party beneficiary of the contract with respect to the portion of work performed on the State's right-of-way; and
- B. A clause requiring the State to be named as an additional insured on any insurance coverage which the contractor is required to provide; and

3.2. *Direction, Supervision and Inspection of Construction*

- A. The contract construction will be under the direction of the City and under the supervision of a registered professional engineer; however, the State participation construction covered under this Agreement will be open to inspection by the State District Engineer's authorized representatives. The City will give the State Aid Agreements Engineer at Roseville five days notice of its intention to start the contract construction.

B. Responsibility for the control of materials for the contract construction will be on the City and its contractor and will be carried out according to Specifications No. 1601 through and including No. 1609 in the State's current "Standard Specifications for Construction".

3.3. **Completion of Construction.** The City will cause the contract construction to be started and completed according to the time schedule in the construction contract special provisions. The completion date for the contract construction may be extended, by an exchange of letters between the appropriate City official and the State District Engineer's authorized representative, for unavoidable delays encountered in the performance of the contract construction.

3.4. **Compliance with Laws, Ordinances, Regulations.** The City will comply and cause its contractor to comply with all Federal, State and Local laws, and all applicable ordinances and regulations. With respect only to that portion of work performed on the State's trunk highway right-of-way, the City will not require the contractor to follow local ordinances or to obtain local permits.

4. Right-of-Way; Easements; Permits

4.1. The City will, without cost or expense to the State, obtain all rights-of-way, easements, construction permits and any other permits and sanctions that may be required in connection with the local and trunk highway portions of the contract construction. Before payment by the State, the City will furnish the State with certified copies of the documents for rights-of-way and easements, construction permits and other permits and sanctions required for State participation construction covered under this Agreement.

Applications for permits will be made on State form "Application for Utility Permit on Trunk Highway Right Of Way" (Form TP2525).

4.5. The City will submit to the Minnesota Pollution Control Agency the plans and specifications for the construction or reconstruction of its sanitary sewer facilities to be performed under the construction contract and obtain, under Minnesota Statutes § 115.07 or Minnesota Rules 7001.1030, subpart 2C, either a permit or written waiver from that agency for that construction or reconstruction. The City is advised that under Minnesota Rules 7001.1040, a written application for the permit or waiver must be submitted to the Minnesota Pollution Control Agency at least 180 days before the planned date of the sanitary sewer facility construction or reconstruction.
