Re: City Proj. #19-07

I live at 2072 Quail Creek Parkway. My house is 1 of 12 proposed to be assessed for improvements on that road.

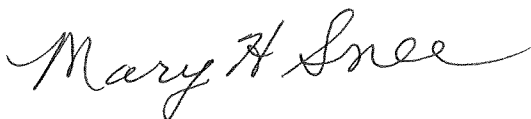

Granted, there is an increase in traffic on the road, but why should only 12 residents be assessed? I live at the beginning of the road and see traffic all day. There are more than 12 residents using the road. How come the other users aren't being assessed?

Blaine has many roads older than mine that should be addressed before my street. If the developer of this area did not prepare the road to allow for the amount of traffic, why didn't the Blaine city planner inform him when the permits were issued.

To me the road does not have any potholes; nor have I seen any standing water or flooded yards. The residents being assessed do not have any sidewalks in front of their home.

I am unable to attend the open meeting on the 21st of February, but I vote to postpone this project.

Sincerely,
