COMMUNICATIONS

Mayor Ryan explained the Council would be postponing action on Item 12.1 until January 4, 2018. He asked if the Council had any comments regarding this matter.

Councilmember Jeppson stated she would support the Council delaying this item even further in order to allow the Council to discuss solar panels at a future worksession prior to taking action. She said she wanted the City Council to review what other cities were doing and to be intentional in its policy.

Moved by Councilmember Jeppson, seconded by Councilmember King, to postpone action to a future workshop meeting Ordinance 17-2392, a Code Amendment to the Performance Standards (Chapter 33) to add free standing solar energy panels as a use that is allowed by Conditional Use Permit and to establish general zoning standards for review and approval of such facilities.

Councilmember Clark stated he had issues with the solar panel Ordinance and he supported the Council taking a step back in order to further review the proposed code amendment. He understood that Connexus Energy would have a request before the City within the next 90 days, which meant the Council would have to review this item and take action. City Manager Arneson reported staff would come back to the Council with a timeline for this Ordinance.

Motion adopted unanimously.

Councilmember Clark requested staff make the public aware of when the solar panel Ordinance would be discussed by the City Council.

OPEN FORUM FOR CITIZEN INPUT

Mayor Ryan opened the Open Forum at 7:35 p.m.

Larry Sable, 10806 Buchanan Street, thanked Kristen Genet for her presentation on the wetland signage at the last Council meeting. He believed the signs would be a great addition to the wetland sanctuary. He understood the wetland project took a great deal of time and foresight. He supported the Council recognizing the people that have worked diligently to preserve the wetland sanctuary, Mayor Ryan being one of them. He thanked the City for making this project happen and encouraged residents to see the bigger picture. He commented on the proposed solar panel Ordinance. He explained that solar energy was coming and would be a valuable resource for the community. He encouraged the Council to be open to requests for solar energy.

Chris Hildrum, 10507 Alamo Street NE, stated he sent an email and petition to the Council today and 30 days ago. He said he was pleased the solar panel Ordinance had been tabled. He explained that trees and plants would not be able to be planted around a solar farm for screening. He recommended the Council review the issues in detail prior to passing a solar panel Ordinance.

Councilmember Jeppson thanked Mr. Hildrum for addressing the Council and encouraged him to trust the process that would be followed by the City Council.

Mayor Ryan closed the Open Forum at 7:50 p.m.

ADOPTION OF AGENDA

The agenda was adopted as amended, noting Item 12.1 had been pulled from the agenda.

7:30 P.M. - PUBLIC HEARINGS AND ITEMS SET FOR A CERTAIN TIME

9.1 Resolution 17-183, Adopt 2018 Tax Levy.

Mayor Ryan opened the public hearing at 7:51 p.m.

Finance Director Huss stated Council conducted a public hearing for the proposed 2018 General Fund budget and proposed property tax levy on December 14. Pursuant to statutory requirements, a public hearing is again scheduled for tonight at which the City Council will consider public input and adopt a final levy and budget. It was noted the proposed resolution reflects the tax levy that Council directed be brought forth for consideration at the December 14, 2017 public hearing. Staff commented on the 2018 tax levy and recommended approval.

Moved by Councilmember Garvais, seconded by Councilmember Jeppson, that Resolution 17-183, "Adopt 2018 Tax Levy," be approved.

Councilmember Hovland requested staff clarify the differences between the tax levy and the tax rate. Finance Director Huss explained the tax levy was the dollar amount the Council would levy that would be spread over all taxable properties in the City. He indicated the tax rate was a function of the total tax levy divided by the total taxable market value within the City.

Councilmember Clark stated he would not be supporting the tax levy. He commented he did not believe the Council should be raising the tax rate and therefore would not be offering his support.

Councilmember King understood Councilmember Clark's concerns, but stated he would be offering his support to the tax levy reluctantly. He reported the Council has kept a very tight budget for years and this would continue, however, in order to maintain the Pavement Management Plan and the City's parks, additional funds were needed. He anticipated the City could keep the tax rate where it was and get by, however, the City's services would suffer in the long run.

Mayor Ryan commented on how the City's property taxes have been well maintained over the past 20 years.

Councilmember Garvais stated he did not like raising taxes either but stated in order to maintain the City's parks and trail system, a minor increase was needed. He explained he supported the City Council creating a park maintenance fund.

Councilmember Hovland clarified the Council was voting to approve an increased tax levy, not the City's tax rate.

There being no public input, Mayor Ryan closed the public hearing at 8:03 p.m.

Motion adopted 6-1 (Councilmember Clark opposed).

9.3 Motion 17-138, Hold a Public Hearing to Receive Input Regarding an Off-Sale Intoxicating Liquor License for Target Corporation DBA Target Store T-1832 located at 1500 109th Avenue NE, Blaine, Minnesota.

Mayor Ryan opened the public hearing at 8:25 p.m.

City Clerk Sorensen stated a public hearing is required prior to the approval of an off-sale license in the City of Blaine. The applicant, Janine Brown-Wiese, Officer/Vice President of Target Corporation, has submitted an off-sale intoxicating license application with all supporting documentation, liquor liability insurance, license fee of \$300 and \$500 background investigation fee for the responsible party, Bret Kerr. The Police Department is currently conducting a background investigation and the license is contingent upon a successful investigation. City Code requires a one-mile radius between off-sale intoxicating licenses. Corey Burstad, owner of Tournament Liquor located at 10901 Baltimore Street, has entered into an agreement with Target Corporation to sell Tournament Liquor, including inventory, and will close in January 2018. Approval of an off-sale license for Target will be contingent upon surrender of the current off-sale license at Tournament Liquor. It was noted Target intends to remodel the current food court space and anticipates opening sometime in April 2018.

Jason Frenstead, Target representative, stated he was excited to be before the Council for this request. He commented on the proposed remodel for the Blaine Super Target and noted the wine and spirit section of the store would be approximately 2,000 square feet in size. He noted Target currently had nine wine and spirit stores in Minnesota and explained his organization was a responsible seller.

Councilmember Hovland expressed concern with how the economy will be impacted when large retailers continue to buy-out local liquor stores. He asked if Target would have specialists on staff to take questions from the public regarding wine and liquor recommendations. Mr. Frenstead discussed the training Target

personnel would receive regarding how to conduct proper alcohol sales. He noted beer, wine and spirit types were briefly described to employees. He reported monthly beer, wine and spirit updates would be provided to these team members.

Corey Burstad, Tournament Liquor, stated he has owned his business for the past 15 years. He thanked staff at the City of Blaine for working with him on this confidential transaction. He indicated he had exciting plans for his building.

- 1) Al'S Check Cashing, 1434 - 93rd Lane NE

City Clerk Sorensen explained State Statute requires cities to hold a public hearing to solicit testimony from interested persons regarding any currency exchange license renewal. Notice of the public hearing was published on December 8, 2017. The Police Department has also reviewed their files regarding both locations and has no concerns regarding the renewals. City approval must be received within 60 days otherwise concurrence is presumed. The deadline for response is January 3, 2018.

9.5 Resolution 17-185, Wellhead Protection Plan Amendment, Improvement Project 15-17.

City Engineer Keely stated John Greer with Barr Engineering had a short presentation for the Council.

John Greer, Barr Engineering, stated as a result of amendments to the Safe Drinking Water Act in 1986, the federal government requires states to establish a wellhead protection plan. This program is designed to

identify sources of supply for drinking water and any potential contaminants that might impact the water, providing a plan to protect the supply from contamination. The Minnesota Department of Health approved a plan requiring all communities and owners of water distribution systems in Minnesota to complete a wellhead protection plan. The City of Blaine completed and received approval for the required Wellhead Protection Plan in 2007. The State of Minnesota Wellhead Protection Rules requires reviewing and amending the Wellhead Protection Plan every 10 years. The City of Blaine has been working with Barr Engineering to do the required Wellhead Protection Plan Amendment (Plan). The Plan identifies the locations of all wells owned by the City and used to provide the public water supply. Detailed information is included regarding which aquifer each well draws from, the surface area around the wells that could potentially introduce contaminants, and any source of contaminants that may be in that area. An important section of the Plan is an action list of goals and activities that should be avoided in the wellhead areas or which might be initiated as a means of proactive protection. He provided further comment on the Plan and recommended approval.

Mayor Ryan reported he drove gasoline trucks for years and was pleased with the improvements that have been made to underground storage tanks. He thanked Barr Engineering for their work on this item.

Councilmember Hovland asked who regulated the drilling of new wells. Mr. Greer reported this is regulated by the Department of Health and the DNR.

Finance Director Huss stated Council has reviewed the proposed list of capital purchases for 2018 at the City Council Workshops of September 14 and November 9, 2017. Based on discussions from those meetings, the attached 2018 proposed Capital Budget is presented for Council's consideration and adoption. Total planned capital expenditures for 2018 are \$2.8 million, about \$685,000 more than the 2017 Budget. It has become customary of the Council to fund capital purchases with the use of unrestricted General Fund reserves when those reserves are available. Current projections indicate that available unrestricted reserves remaining at 2017 year-end will not fully fund all proposed capital purchases in 2018. The budget indicates the issuance of a capital certificate of indebtedness to fund the remainder. Staff also reviewed the five-year outlook for the Capital Equipment Fund. Projections indicate declining capital expenditures of roughly \$200,000 annually in the succeeding four years. Staff reviewed the Capital Equipment Budget in further detail with the Council and recommended approval.

The actual purchase of the vehicles will be in 2018 and the vehicles will be purchased from various vendors using the State Cooperative Purchasing Program.
