Actual costs may vary and those will be the costs for which the relevant parties will be responsible. The estimated construction cost of the total project (including County furnished materials) is \$30,000.00. Participation in the construction cost is as follows:

The City shall pay for one hundred percent (100%) of the actual signal painting, at an estimated cost of \$10,000.00/signal system (intersection). The grand total estimated cost to the City for the project is \$30,000.00.

Upon award of the contract, the City shall pay to the County, upon written demand by the County, ninety five percent (95%) of its portion of the cost of the project estimated at \$9,500.00/program year. The City's share of the cost of the project shall include only construction and construction engineering expense and does not include administrative expenses incurred by the County.

Upon final completion of the project, the City's share of the construction cost will be based upon actual construction costs. If necessary, adjustments to the initial ninety five percent (95%) charged will be made in the form of credit or additional charges to the City's share.
