

A Process of Complying with ADA Title II for Facilities Within the Public Right of Way Transition Plan Process

1. Review information as to how projects constructed since January 26, 1992 included ADA elements. This includes Mill and Overlay projects.
2. This Council/Board packet and presentation should include an overview of the ADA Title II requirements and a summary of the existing agency policies. See Attachment 1 for ADA Fact Information.
3. Intermediate Council/Board involvement is not a requirement. These meetings represent only one possible scenario.
4. Title II of the ADA requires targeted outreach to the disabled community. This can be accomplished in many different ways and can be customized by each individual agency. The public process identified in the guide map represents one possible scenario.
5. Example checklists and a data dictionary are available for use. See Attachment 2 for General Inventory Information.
6. Example Self Evaluations are available for review. See Attachment 3 for general information.
7. A model transition plan has been created for use as a starting template and is found in section 2 of this document.
8. A Title II coordinator and grievance procedure are needed for all of the agencies facilities, programs and services. These elements are required for more public accessibility areas beyond public rights of way that this document is developed for. Consistency between all areas should be reviewed.
