Re: Sanctuary Development – Blaine, Minnesota
Accessory Building Ordinance
Res: 20-169

Dear Mayor Ryan and Esteemed Councilmembers:

I and my wife live in the Sanctuary Development in Blaine and I am writing to you in response to the November 16, 2020 hearing and public comments regarding the above matter.

First and foremost, the “survey/vote” that was conducted by those parties wishing to change the current ordinance is flawed, not accurate and as was pointed out by several members of the public and Council, is highly suspect both in terms of method and results.

I have requested from the City of Blaine a copy of the original submitted survey/vote results. I then put the actual data supplied into a sortable format and have attached a copy of both for your review. The findings are as follows:

- While the survey creators claim that no two homeowners were counted more than once and that the “Yes” votes totaled 104, the actual data shows something quite different. I have highlighted those homeowners that were counted more than one time and the **actual Yes vote tally is 96.**
- In reviewing the “NO,” “NO RESPONSE,” or “ABSTAIN” votes, the total is actually **88 no or no response votes.** I spoke to several members of my neighborhood that did not respond and their comments included that they didn’t trust this type of vote or that they didn’t want to be at odds with their neighbors so they just didn’t vote. All are opposed to the ordinance change.
- Finally, I have created a five-page map of the Sanctuary and recorded the response for each property. What is interesting is that there are 11 properties in the Sanctuary that didn’t get a response recorded in the submitted results. I don’t know if this was an oversight or an attempt to skew the results. Either way, this is another example of why the results of this “survey” are suspect and do not reflect the entirety of our neighborhood. When added to the NO or NO RESPONSE column, the **NO’s or NO REPONSES now total 99 homeowners.** Clearly, the majority that was portrayed by the original survey takers is not accurate and the results cannot be relied upon.
- **THE TRUE FINAL VOTE TALLY IS:**
 - o **NO/NO RESPONSE – 99**
 - o **YES - 96**

During the November 16, 2020 hearing on this matter, Mayor Ryan pointed out that it would be a hardship to have those who have already built sheds to have to tear them down. With all due respect to the Mayor, violations of the law should not be rewarded with concession. By way of example, if a football player gets called for holding on a play that would have resulted in a touchdown, there are consequences. The offending teammate cost his team a chance to win the game. This is a hardship. Running a stoplight results in consequences and hardship to the violator. These analogies are exactly the same as homeowners in the Sanctuary that violated the ordinance by building unlawful sheds. That is exactly how our system is supposed to work.

Councilmember Jeppson made the comment that since at least some of the homeowners in question claim to have received permission from the “city” to build their sheds that they should be allowed to stay.

Again, with all due respect to Councilmember Jeppson, for the homeowners to claim that “someone” at the city gave them permission is offensive to the good women and men who work at the City of Blaine. Essentially, what the homeowners are doing is blaming some nameless city employee for their violations.

There have been complaints in the past about this issue in the Sanctuary and I find it difficult to believe that a responsible city employee would simply tell someone to “go ahead” without first checking the ordinance. Clearly the homeowner knew there was a restriction on accessory buildings or why would they have allegedly called to ask permission. To blame this on a city worker without providing any further details is simply wrong. There are no names, dates, etc. to substantiate the claims of receiving permission.

I have also questioned the size, construction, foundation and appearance of the sheds, should they be allowed. Who will monitor the upkeep? The appearance? The size and removal? Will a tin shed from a discount store be acceptable if it matches the color of the house?

Sanctuary Development – Res: 20-169

November 30, 2020

Page 4

Finally, while we do not live on a pond, the property lines do not even identify where the ponds are. How much of a setback will there be if the property line is in the middle of a pond? A comment was made that since all of the homeowners living on a pond voted no that they would likely not build a shed anyway. This is flawed reasoning. Homeowners move, change their minds, etc.

I wanted to respectfully point out these few issues prior to your final vote on this matter in December. Clearly, the majority has not voted YES as has been portrayed. This issue is very divisive for many neighbors and the best solution is to leave the ordinance as is. All homeowners knew when they built or bought in the Sanctuary that this ordinance existed and accessory buildings are not allowed.

We urge you to oppose any changes to the current R-1B ordinances for the Sanctuary Development.

Thank you.
