Planning Commission

The Planning Commission voted unanimously to approve the code amendment. There were no comments at the public hearing.

Recently the Planning Department was reviewing the sign code with respect to the particular section that deals with multi-tenant building signage. After thinking about the ordinance and

different commercial/industrial sites that exist in Blaine, staff determined that it is reasonable to allow a larger second monument sign for those sites that have at least 400 feet of lineal frontage and that abut a street that is at least an arterial. These larger sites are already allowed two signs but the current ordinance limits the second sign to not more than 75-square feet; staff is suggesting a larger size for the second monument sign.

The amendment would increase the allowable area to 140 square feet to match the size of the primary sign. When logically thinking about the visual impact of the larger sign, it makes sense to allow the extra square footage because generally the two signs are either not on the same side of the site, or are several hundred feet apart. The code amendment includes language that requires two signs to be at least 150 feet apart if they are located on the same side of the site.

By motion, approve second reading of the proposed Ordinance.
