GRANTING A CONDITIONAL USE PERMIT TO ALLOW FOR INDOOR AUTO SALES IN AN I-2 (HEAVY INDUSTRIAL) ZONING DISTRICT. C.A.S. AUTO. (CASE FILE NO. 15-0020/LSJ)

Planning Commission (Public Hearing) 04/14/15
City Council (Conditional Use Permit) 05/07/15
Action Deadline 05/15/15

The Planning Commission voted unanimously to approve the conditional use permit. There were no comments at the public hearing.

The applicant, C.A.S. Auto, is preparing to occupy a tenant space at 10661 Nassau Street NE. The site is zoned I-2 (Heavy Industrial). The owner of the business intends to do automobile repair and auto body repair in this space, which is a permitted use in the I-2 Zoning district. He also intends to have a dealer's license, and for the City to allow this license to be issued by the state, a conditional use permit must be granted for an indoor vehicle showroom.

The applicant has stated that he intends to sell vehicles from time to time but will not have any vehicles for sale outdoors on site. Because the conditional use permit is for an indoor showroom, the City does not allow any cars to be for sale outside on the premises. The City has had code enforcement issues with the owner of this business in the past that were in direct

correlation to having too many vehicles and parts outside on another site in the City. Because of these issues, a condition has been added that requires a site inspection every six (6) months to ensure that there are no cars for sale outside, and that there is no outside storage related to the auto repair business.

The tenant space that will be occupied is 3,000 square feet. The floor plan indicates plenty of room to store vehicles inside if necessary.

The site itself meets ordinance requirements for landscaping and parking. The applicant will need to obtain a certificate of occupancy and meet all building and fire code requirements.

By motion, approve the Resolution.
