REVIEW WATER SYSTEM PLAN UPDATE

The City has been working with Barr Engineering Co. to update the 2002 Water System Plan. A draft Water System Plan Update has been prepared and is attached (without the appendices included due to file size constraints).

A brief summary of the changes or updates from the 2002 plan, including filtration and storage capacity, water supply wells and other capital improvement plan items will be presented at this Workshop meeting for Council discussion.

The final Water System Plan Update will be included as an appendix in the City's 2040 Comprehensive Plan.

City Council discussion on proposed water system plan update.
