City Council (Second Reading) 02/07/22

Background

Staff report prepared by Sheila Sellman, City Planner

In the 2030 and 2040 Comprehensive Plan, the City Council identified an area near 105th Avenue, Nassau Street, and Radisson Road for future redevelopment. Initial discussion from the City Council has identified this area as a potential entertainment hub to capitalize on the activity at the National Sports Center and serve the entire Blaine community. The City is embarking on a visioning study to identify future land uses in this area to guide redevelopment. The final product will be an illustrative master plan that can be used to market the area for future development.

Purpose of the Development Moratorium

The development of a master plan, as outlined above, is underway and expected to take approximately 7-8 months with an additional 3-4 months to establish new or modified land use or zoning controls necessary to implement the plan. The purpose of the moratorium is to allow the City the time to conduct this study, without the pressure of land development decisions, by establishing a moratorium on all development controls including re-zonings, conditional use permits, interim use permits, site plan, variances, subdivision, or platting.

Moratorium Term

The proposed moratorium would be for a term of 6 months (second reading is in February therefore the term is until August) unless rescinded earlier by City Council action. It could be extended for an additional time period, should the City deem necessary, as provided by state statute.

Moratorium Area

The area impacted by the moratorium is outlined in Exhibit A.

Strategic Plan Relationship

The moratorium is consistent with Growth Management in the Strategic Plan. An initiative identified in the plan is to implement 105th Avenue corridor study and this moratorium is part of that process.
