Title

Adjusting Certain Tax Levies for Bonded Indebtedness for Fiscal Year 2023

Executive Summary

Staff recommends Council adoption of the resolution below to adjust tax levies certified for bonded indebtedness.

Background

Staff recommends Council adoption of the resolution below to adjust tax levies certified for bonded indebtedness. The resolution includes adjustments to scheduled levies for the City's General Obligation (G.O.) Special Assessment Improvement Bonds, G.O. Capital Improvement Bonds, and the City's Capital Equipment Certificates of Indebtedness.

For G.O. Debt issues that are primarily funded through special assessments against the improved property, an analysis of deferred special assessments collections is made by the City's financial consultant at the time the bonds are issued. This typically results in a calculated deficit of available funds, thus requiring a tax levy to fund repayment of the debt. This calculated levy is certified to the County at the time the bonds are issued as a general ad valorem levy for each year. These levy amounts are reviewed annually to verify their necessity.

Finance as reviewed the financial position of each of the City's debt service funds and has determined that scheduled levies for certain bond issues be adjusted in 2023. In total, the proposed preliminary 2023 debt service levy for all debt service funds is \$4,800,000 the same as that levied for all debt service funds in 2022.

Strategic Plan Relationship

The debt service levy is a key component in meeting the city's strategic priority of Financial Stability.

Board/Commission Review

The aggregate proposed debt service levy remains unchanged from that presented to Council at the Council Workshop of September 12.

Financial Impact

Long-term management of the debt service levy allows for strategic allocation of other levies for operations and other Council established priorities.

Public Outreach/Input

No public notification required.

Staff Recommendation

By motion, approve following resolution
