**DEVELOPMENT BUSINESS** - *Bryan K. Schafer, Planning and Community Development Director*

### **GRANTING PRELIMINARY PLAT APPROVAL TO SUBDIVIDE 3.19 ACRES INTO 11 DETACHED TOWNHOME LOTS TO BE KNOWN AS CAROLE'S COVE AT NORTH ROAD EAST OF JEWEL STREET. FRANK FEELA. (CASE FILE NO. 15-0009/LSJ)**

Planning Commission (Public Hearing)	05/12/15
City Council (First Reading)	
<b>City Council (Preliminary Plat)</b>	<b>06/18/2015</b>
Action Deadline	07/19/15

The Planning Commission voted unanimously to approve the rezoning and preliminary plat. Public comments included questions regarding the homeowners association and the buffer zone.

The applicant, Frank Feela, is proposing to develop a property that has been vacant for many years and that lies north of North Road and west of Lever Street. It is a 3.19 acre parcel that has a current zoning of R-1 (Single Family) and a land use of LDR (Low Density Residential).

#### **REZONING**

Mr. Feela is proposing to create 11 single family lots on this property. While this number of lots fits with the current land use of the property, the applicant wishes to change the zoning of the property to DF (Development Flex) to provide more flexibility with setbacks, lot size, etc. In return the City can require upgraded building elevations and landscaping to provide a nice product and neighborhood for the area.

#### **PRELIMINARY PLAT**

The proposed plat of Carole's Cove contains 11 single family lots. The lots will be accessed via the creation of a cul-de-sac, Kissel Court NE. All of the storm water features of the plat will be maintained by the private association for this plat.

The applicant will be required to pay park dedication for this plat in the amount of \$3,404 per lot, for total due of \$37,444. This fee must be paid prior to release of the final plat mylars for recording at Anoka County.

The cul-de-sac will be a public street with dedication of 60 feet of right-of-way and shall be constructed to 29 feet back to back in width.

Standard utility and drainage easements must be dedicated along all lot lines and over areas of infiltration trenches, drainage swales, and storm water management ponds. The Developer is to provide access for inspection and maintenance of the storm water management infrastructure. Restrictions will be placed on lot lines as needed to limit fences and landscaping to insure access. Design of landlocked storm water features must be designed based on back-to-back 100 year events.

Development requires a National Pollutant Discharge Elimination System (NPDES) Phase II General Storm Water Permit for construction activity from the Minnesota Pollution Control Agency (MPCA). A prerequisite to the MPCA permit application preparation of the Storm Water Pollution Prevention Plan (SWPPP) for the development site.

The Developer will need to obtain a Rice Creek Watershed prior to any activity on site.

As-built surveys shall be required to verify structure elevations, custom grading requirements, and final lot grading elevations.

By motion, approve the Resolution.

**WHEREAS**, the Blaine Planning Commission has reviewed said case file on May 12, 2015; and

**WHEREAS**, the Blaine Planning Commission has recommended subdivision Case File No. 15-0009 be approved subject to certain stipulations; and

**WHEREAS** the Blaine City Council has reviewed said case file on June 18, 2015.

**NOW, THEREFORE, BE IT RESOLVED** by the City Council of the City of Blaine that preliminary plat approval per Section 74-42 of the subdivision regulations is hereby granted for Carole's Cove permitting preparation of a final plat for approval per Section 74-43 subject to the following conditions:

1. The applicant will be required to pay park dedication for this plat. If paid in 2015 the amount will be \$3,404 per lot, for total due of \$37,444. This fee must be paid prior to release of the final plat mylars for recording at Anoka County.
2. Rice Creek Watershed District permit is required prior to any site work. The Developer shall be responsible for the construction, maintenance, and repair of storm water features.
3. Cul-de-sac (Kissel Court NE) requires dedication of 60 feet of right-of-way and shall be constructed to 29 feet back to back in width.
4. Site plan and grading approval is required prior to any construction activities occurring on site.
5. As-built surveys shall be required to verify structure elevations, custom grading requirements, and final lot grading elevations.
6. The developer will be responsible for installation of sanitary sewer, water main, storm drainage improvements, street with concrete curb and gutter, street lights, mailboxes, traffic control signs, street signs, and all appurtenant items. The City shall approve plans and specifications prior to start of construction.
7. All Streets will follow the Anoka County street name grid system. The proposed street shall be named Kissel Court NE.
8. Standard utility and drainage easements must be dedicated along all lot lines and over areas of infiltration trenches, drainage swales, and storm water management ponds. The Developer is to provide access for inspection and maintenance of the storm water management infrastructure. Restrictions will be placed on lot lines as needed to limit

fences and landscaping to insure access. Design of landlocked storm water features must be designed based on back-to-back 100 year events.

9. The Mayor, City Clerk and City Manager are hereby authorized to execute any and all necessary documents, agreement and releases related to the approval, recording or administration of Carole's Cove.

**PASSED** by City Council of the City of Blaine this 18<sup>th</sup> day of June, 2015.
